

ISS-INTELLIGENT SKIN SPA, 37 SAUGATUCK AVENUE, WESTPORT, (203) 341-9779, isintelligentskin.com Marlene Katz, a Weston resident and former owner of a renowned day spa in NYC, recently launched ISS-intelligent skin spa in Westport. Here you'll find a taste of her metropolitan spa concept with a new twist that combines treatments typically found in European spas, customized for the lifestyle of the spa's Connecticut clientele. Upon entering the cozy spa you're immediately taken by the warm ambiance of a candle lit room scented by flowers and herb infused teas. Instead of coffee you are offered an aromatherapy O2 inhaler for a burst of energy. Known mostly for her holistic anti-aging treatments, Marlene has been a guest speaker on Good Morning America and featured in publications such as Cosmopolitan, Harpers Bazaar and Elle Magazine. She writes beauty articles and conducts seminars that educate on how wellness and beauty work hand in hand. Marlene believes that beauty radiates from the inside out and for this reason offers self empowerment seminars called Avenues of Awareness at ISS. "The spa experience begins at ISS but continues with the client as they learn how to better care for their whole essence. This is when inner beauty shows up on the outside as radiance. By balancing one's energy, instituting a positive disposition and taking proper care of the skin, facial expressions soften, skin cells renew and one's overall appearance improves." ISS offers a wide array of skin, body and wellness treatments. Open Tues., Wed., and Fri. 9:00 - 6:00, Thurs. 9:00 - 8:00 and Sat. 9:00 - 5:00.
