EVEN OUT™ Total Skin Wash 7.75 oz/210ml)

DESCRIPTION

This detergent-free, herbal skin wash removes impurities, calms skin prone to flare-ups and restores balance to the skin. **Even Out** is formulated with soothing and antiseptic extracts that are known to relieve discomfort due to inflammation, itching and skin irritations and the skin.

SKIN TYPE

Face: Acne prone, oily and combination skin.

Total Skin: As a body wash for skin prone to breakouts on back and shoulders or overly dry parched and itchy skin.

USE

Face: Apply a dollop of cleansing gel to wet fingertips and massage into skin. Work into light lather to gently clean off make-up and debris.

Body: Apply to a sponge or loofah for a stronger lather Rinse well with tepid water.

KEY FEATURES AND BENEFITS:

Free of detergents, synthetic colorants and fragrance. Contains 8% botanical extracts and. pH balanced at 5.5

Sucrose Cocoate: Mixture of sucrose esters of coconut acid. This extremely mild emollient gently lifts debris from the skin.

Soapberry Extract: The extract of the fruit of *Sapindus saponaria*. The berries of the tree contain as much as 37% saponin.

Willow Bark Extract: Extracted from the leaves of the willow tree and contains salicylic acid. Willow, a close cousin of aspirin, has been used for its pain-relieving, anti-inflammatory and fever-lowering properties since ancient Greece. American Indians used willow baths to cool fevers.

Yarrow Extract: Perennial herb. Reported to be anti-inflammatory and traditionally used as a tonic, carminative, antispasmodic, astringent and haemostatic. In China it is recommended for sores and wounds.

Sage Extract: Small, evergreen shrubby perennial with woody stems. Reportedly has an anti-bacterial, fungistatic, virustetic, astringent, antispasmodic and perspiration-inhibiting (diaphoretic) effect. Can serve as a source of natural antioxidants.

Calendula Officinalis Extract: (marigold) Anti-inflammatory, immunomodulating, wound healing; stimulates granulation at wound site (increases glycoprotein, nucleoprotein and collagen metabolism at site); antibacterial; antifungal, antiviral; antiparasitic.

Arnica Montana Extract: Perennial herb native to mountainous regions of Europe. It is known as an anti-inflammatory and has immunostimulant properties that are beneficial in wound healing. Used in a tincture or salve for external applications to sprains and bruises.

Sweet Marjoram Oil: Used in perfumery for its warm woody scent. This versatile herbal extract is popular with herbalists to treat respiratory ailments and muscular pain. As a culinary spice, it adds a good flavor and aids digestion. This natural antioxidant oil is soothing, antiseptic and has bactericidal properties.
