

## ISS, Product Data, Ingredients and Usage

**MELT DOWN™ all skin cleanser 4.75 oz/137ml)**

### DESCRIPTION

**Melt Down** is the most efficient, no-nonsense two in one make-up remover and face cleanser. This creamy gel is made with the natural molecule of Sucrose Cocoate to gently lift debris and make-up from the skin. without stripping away its intrinsic protective oils. Citrus oils bathe the skin of impurities while algae and rose oil help keep the skin soft.

**SKIN TYPE:** All skin including extremely sensitive skin.

### USE

**Face:** Work into skin with fingertips or cleansing pads and rinse with water.

**Eyes:** Apply a small dab to wet cotton pad and apply pads directly to eye area to remove make-up.

**Other:** Cleanser may be used as a shaving cream for men with sensitive skin and women that shave sensitive areas such as bikini line and underarms.

### KEY FEATURES AND BENEFITS

*Free of detergent, synthetic color and fragrance. pH balanced at 5.5*

**Algae Extract:** Alginates are found in seaweed and are rich in vital mineral and trace elements. They present a strong moisturizing effect on the skin along with firming and stimulating properties.

**Carrageenan:** Irish moss. A stabilizer and emulsifier, seaweed like in odor, derived from Irish moss, and used in oils in cosmetics.. Used medicinally to soothe the skin.

**Sucrose Cocoate:** Mixture of sucrose esters of coconut acid. This extremely mild emollient gently lifts debris from the skin.

**Camellia Sinensis Leaf Oil:** A tropical Asiatic evergreen shrub or small tree with reddish or white flowers. Used to scent perfumes and in antiwrinkle creams.

**Basil Oil:** Herb native to Europe, India and the U.S. A volatile oil with carminative, stimulating, and diuretic effects. A flavoring and aromatic.

**Bergamot Fruit Oil:** Direct result of cold expression from peel of fresh, nearly ripe fruit. Contains approximately 300 compounds in the oil including terpenes. Used as an aromatic.

**Grapefruit (Citrus Grandis) Oil:** Volatile oil obtained from the pulp of grapes. Contains monoterpenes, hydrocarbons, limonene and sesquiterpenes. Reported to be a lymphatic stimulant, nourishes the tissue cells, stimulates bile secretion and controls liquid processes in the body. Has an astringent effect on the skin. Also used in fragrances.

**Lemon (Citrus Medica Limonum) Oil:** Obtained from the citrus lemon tree. Contains essential oils, pectin, organic and amino acids. Celebrated for its toning, cleansing, purifying and brightening properties. Used in oily skin preparations.
