

Skin

Forget the gold; **Cor Silver Soap** will give your client winning skin! Silver particles stop bacteria dead in their tracks, while sericin, a protein made from silk, binds to skin to create a protective shield against UV damage as it imbues moisture.

Mist-ify her with **C'watre Kanreki Tonic**, which boasts Odoroki, a modified form of seawater that provides dull skin with needed minerals and nutrients as it delivers hydration. White tea extract acts as an anti-inflammatory, and pine tree extract improves skin's texture as it eliminates dry patches.

Spice up skincare routines with **Joey NY Specialty Time For A Quickie**, an intense, seven-product antiaging kit that features (among others) **Nitty Gritty Polish And Prime** to buff skin smooth and potent **Fill Your Time** gel to tighten and refine with salicylic acid and marine collagen.

Enjoy hands-on luxury with **Frais Hand Sanitizer**, which combines the germ-killing power of pure sugarcane alcohol with Les Huit, a proprietary blend of eight aromatic essential oils. What's more, scents of ginger, tangerine, lemon myrtle, and cardamom make washing hands a treat.

Intelligent Skin Sense launches **Bag Lady**, a botanical antiaging eye gel employing rice and soybean proteins to increase collagen production, as well as raspberry and green tea extracts to tighten skin around the eye. Bonus! Comes with the **ISS Freezer Pen**, a roll-on applicator that's chilled in the freezer for instantly soothing results.
